

Muffle Furnaces / Ovens

Rimara make a range of muffle furnaces for sintering, hardening and annealing under protective atmospheres.

Rimara are leaders in muffle technology for wide belt applications with maximum widths to 3 meters possible.

Unique Muffle construction - Maximum 1140c

Overview

- Temperatures up to 1100 c
- Belt widths up to 3000mm.
- Fuel, gas or electric.
- Transport: Mesh belt, Chains, Rollers.
- Computerised furnace management systems.
