

## Glass Container Lehrs

Rimara today continues its long history manufacturing thermal equipment for the glass industries worldwide. With more than 2000 annealing Lehrs installed spanning more than 100 years we continue to contribute to the evolution of annealing Lehr technology.

Today the company supply high efficiency Lehrs for:

Fine annealing optical blanks.

Fine annealing of container glass.

Decorating Lehrs.

Degassing Lehrs.

### *Key design features include:*

Direct driven recirculation fans.

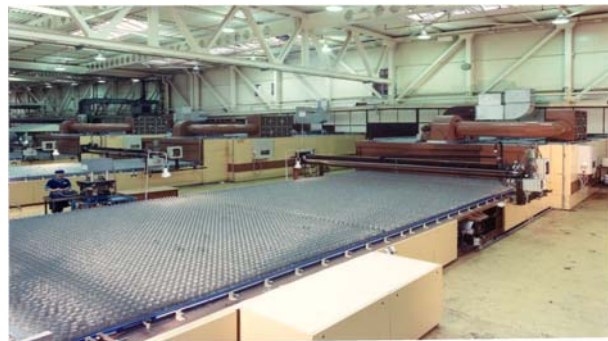

Double rubber covered drive drums.

Heat recovery systems.

High capacity cooling systems.

Gas or Electric heating systems.

PLC / Scada control systems.
